

# NEW VISION PERFECT PROGRAM

We are pleased to announce that you will have the opportunity to enroll in an eye care program called Vision Perfect. Effective January 1, 2012, the vision benefit will NOT be included in the medical plan. Therefore, you no longer have to participate in the medical plan to be eligible for vision benefits.

Vision Perfect's flat annual maximum provides you with a **\$350** calendar-year benefit to spend at any eye care provider. Plus, you can get additional savings through the EyeMed network. Just pay for your unlimited exams and materials, and Ameritas will reimburse you up to your set annual eye care dollar amount.
